AVAILABLE PLACES

Accommodation is a very big issue in Milan. In case of need of information about housing, you might want to check out [this very useful Guide](#) from ESN Politecnico Milano, a student association whose aim is to make life easier for international students at PoliMi.

STUDENTS SERVICES

OTHER FACILITIES

Canteen and dining options (Microwave ovens) are available in all the different campuses

The **Giuriati Sports Center**, with its **36,000 square meters** of surface and its **12 practicable disciplines**, is located in the heart of the historic **Leonardo Campus** of Politecnico di Milano. The center has been completely renovated and is ready to become a place of **sharing, participation** and **integration** for students, the Politecnico **community** and for all Milanese citizens. The new facilities were built and set up in the name of **technological innovation** and **energy sustainability** in one of the most complete sports facilities in the city.

STUDENTS SERVICES

BUDDY PROGRAM

A Buddy is a student of Politecnico di Milano who has decided to dedicate, **as a volunteer**, part of his/her time to help an International student to settle in a new context.

A Buddy is a student like you, who will mostly be busy in attending classes and studying for exams, but he/she will find some time every week to meet you and/or write to you in order to answer your queries and introduce you to the new context and culture.

A Buddy is someone who also has had to adapt and learn how to overcome initial problems and who will share his/her experience and help you out!

.... a friend with whom to share the experience of coming to a new country.
